

NICULITA SAMUEL ISIP

Fullstack Programmer Analyst

samuel.isip26@gmail.com · +34 641 892 657 · samuelisip.es · linkedin.com/in/samuelisip

Fullstack Programmer Analyst with 6 years of experience, specialized in maintaining and improving the performance of production applications.

Languages: English (B2) · Spanish and Romanian (native).

Experience

Programmer Analyst — Corporación Atresmedia

Dec 2025 — Present

- Built a critical payroll and employee-data application from scratch, used daily by hundreds of people, with Spring Boot, Spring Cloud, PostgreSQL and React.
- Implemented API security with Microsoft EntraID, OAuth2/JWT and Spring Security.
- Deployed to production through a complete DevOps pipeline: Docker, Jenkins and GKE; also improved the Go-based Gateway used by the platform's microservices.

Programmer Analyst — Serbatic

Nov 2020 — Dec 2025

Projects for Aena, Redsys and Atresmedia

- Redsys — Implemented the caching layer of a new system processing thousands of banking transactions.
- Atresmedia — Maintained and evolved 5 complex internal web applications with workflow logic (React, Spring Boot), cutting incidents by 70% and file-generation time by 80% through code refactoring and SQL query optimization.
- Aena — Improved the corporate website's SEO.
